

## Appeal to the world's free people

### Stop the ISRAELI TERROR AGAINST THE PALESTINIAN PEOPLE

We hereby reject the continuous Israeli crimes in the occupied Palestinian territories, which are represented by Israeli settlers' daily attacks on the Palestinians in holy city of Jerusalem.

The daily arrests by the Israeli forces, the systematic policy of torture of the Palestinians, and settlers' crimes against the Palestinians, such as; burning them alive. A latest incident of "Dawabsheh" family in Duma village, in the governorate of Nablus is a live example of the terrorism being implemented by the Israeli settler.

In addition to the continuous occupation activities, such as land confiscation and settlements expansion over the peasants' lands. The systematic Israeli polices suffocating the Palestinian economy, and the abject failure in peace negotiations between the Palestinian Authority and Israeli forces, which lead only to more Israeli occupation's control over the Palestinian sovereignty. All of these violations have forced the Palestinians to arrange demonstrations all over West Bank, Jerusalem, Gaza and the occupied Palestinian land in 1948, to express their anger, where Israeli forces brutally repressed protesters by killing them in front of the eyes of the whole world, and conducted daily executions against Jerusalemites just because they are Arab Palestinians.

Since the beginning of October 2015, the Israeli forces remarkably escalated the use of force against Palestinian civilians participating in demonstrations in the occupied Palestinian territories, using their internationally proscribed weapons against the unarmed stone throwers.

During the reporting period, the number of martyrs in the West Bank and Gaza Strip has reached to 32 Palestinian civilians, including 7 children, a number were killed by settlers in cold blood. Most of the martyrs' wounds were in the upper part of their bodies, while more than 1,500 were wounded with live ammunition and rubber bullets including 200 children and 40 women, and 150 Palestinians, who have been physically assaulted by Israeli forces and settlers. At least 800 Palestinians were arrested 50% of them were children; these events inclusively are located in Jerusalem and the governorates of Ramallah, Nablus, Hebron, Tulkarem, and Qalqilya.

Moreover, the Israeli settlers carried out a series of attacks on the Palestinian civilians and their agricultural lands; the last incident was the burning of dozens of dunums in the villages of Burin and Hawara in the governorate of Nablus. Other settlers' crimes represented by their attempts to kill students attending their schools in Jerusalem, which repeats the memory of the crime of burning alive of the innocent child Mohammed Abu Khudair last year in Jerusalem

The Israeli occupation and settlers have converted the Palestinian streets to death streets, where the Palestinians are under threat of being killed with bullets ; either by an armed settler, or by an Israeli sniper. Whereas, the occupation media still conspires with the Zionist tale that creatively converts the image of the Israeli as a victim ignoring the real fact.

Just one example of a willfully crime, is the story of Fadi Alloun, 19-year-old resident from Al Issawiya neighbourhood of the East Jerusalem , who was murdered by the Israeli forces who claimed that Fadi attempted to stab a settler, before the Israeli police shot him dead, while the Israeli media reported that he was shot while “trying to escape from the security forces that began chasing him. A video documents the shooting of Fadi Aloun” [The Shooting video of Fadi Alloun](#) which shows the crime scene of Alloun who was not holding a knife when he was shot, and therefore did not cause any threat against the Israeli settlers or officers.

The World’s Free People will never stay silent against the killing of the Palestinian people. The scene of the wounded Palestinian 13 years boy Ahmed Manasrah shows the inhuman treatment by the Israeli settlers and Israeli police officers, who were insulting him and calling for killing him; in spite of his wounds. But the worst is the violation against Human Rights by the David Red Star emergency ambulance crew who did not provide the boy with the needed first aid services, responding to the settlers’ stresses to kill him, saying “Die, Die”. This scene [“The pain of our wounded child](#) “must shake the world’s consciousness to force the end of this systematic terrorism.

Thousands of horrible stories are still to be heard; meanwhile of reading this message, more and more Palestinians are being murdered. Therefore UAWC urgently calls upon:

- Breaking the international community's silence and acting immediately to protect the Palestinian people and put pressure to end the Israeli Occupation.
- Arranging International and national social movements and activities to start effective demonstrations in front of the Israeli embassies where available to stop the Israeli violation against our nation
- Boycotting the Israeli occupation and the settlements products, and the diplomatic relations.

In Solidarity,

UAWC
